Join us for the third annual Going Green - Growing Green conference and trade show on agriculture and energy.

This exciting forum will provide farmers and farm businesses with the most current practices in alternative energy sources and energy efficient production. Delegates will enjoy first hand information from experienced producers and suppliers, with real-life stories to share!

Environmental practitioners in Saskatchewan need to hear and understand the issues facing producers, and here's your chance.

**Farm energy could be your next big opportunity!**

**Seating and exhibit space is limited  
so register today!**

**EARLY-BIRD REGISTRATION FORM**
